SIOUX CITY MUNICIPAL AIRPORT

ADMINISTRATION BUILDING

South of Sioux City, reached by the New Interstate Freeway and Hwy. #75.

This new Administration Building is one of the finest in the Middle West. The control tower is actually seven stories high, one of the tallest for this type of airport in the world. It provides adequate quarters for CAA Control Tower, Airways Communications Station, U. S. Weather Bureau, Braniff International Airways, Ozark Airlines, and North Central Airlines.
